Subject Index

***Acanthamoeba* keratitis**
Antimicrobial comparison of a new multi-purpose disinfecting solution to a 3% hydrogen peroxide solution, 213

Aphakia
Management of pediatric aphakia with Silsoft CLs, 209

Astigmatism
Diagnostic bitoric rigid gas permeable CLs, 163

Bifocal CLs
Clinical assessment of the piggyback bifocal CL system, 36
Clinical performance of an innovative back surface multifocal CL in correcting presbyopia, 176
Prospective clinical evaluation of the Acuvue Bifocal CL, 218

Book Reviews
Corneal Disorders: Clinical Diagnosis and Management, 68
Glaucoma Surgery: Principles and Techniques, 68
Retina-Vitreous-Macula, 134

Contact lenses (CLs)
A better understanding of ulcerative keratitis (editorial), 66
Achieving additional myopic correction in undercorrected radial keratotomy eyes using the Lexington RK design, 21
Antimicrobial comparison of a new multi-purpose disinfecting solution to a 3% hydrogen peroxide solution, 213
Antimicrobial comparison of a new multi-purpose disinfecting solution to a 3% hydrogen peroxide solution, 213
Bilateral *Pseudomonas* corneal ulcer in a disposable CL wearer, 123
Clinical assessment of the piggyback bifocal CL system, 36
CL wear after PRK: Comparison between rigid gas permeable and soft CLs, 233
Clinical performance of an innovative back surface multifocal CL in correcting presbyopia, 176
Comparison of contrast sensitivity in different soft CLs and spectacles, 48
Comparative antimicrobial efficacy of multi-purpose lens care solutions using the FDA's revised guidance document for industry: stand-alone primary criteria, 52
Comparison of tear lactate dehydrogenase activities of different types of CL wearers and a normal control group, 101
Corneal ulcers and the use of topical fluoroquinolones, 200
Cytotoxicity evaluation of multi-purpose CL solutions using an in vitro test battery, 28
Diagnostic bitoric rigid gas permeable CLs, 163
Differentiating CL induced warpage from true keratoconus using corneal topography, 114
Effect of RGP CL wear on proliferation of rabbit corneal and conjunctival epithelial cells, 136
GPC in Frequent replacement CL wearers, 142
Incidence of contamination of preserved saline solutions during normal use, 167
Hydrogel CL dehydration and oxygen transmissibilities, 148
Management of pediatric aphakia with Silsoft CLs, 209
Microbiological evaluation of Cls and CL disinfection solutions in an asymptomatic population and in medical personnel, 228
Omafilcon A (Proclear) soft CLs in a dry eye population, 40
Multi-purpose lens care solutions (letter), 70
On-eye dehydration of Proclear Compatibles Lenses, 233
Papillary hypertrophy of the upper tarsal conjunctiva during CL wear: A 4-month study with ethyl-6-O-decanoyl-glucoside, 105
Penetration of topical ciprofloxacin by presoaked medicated soft CLs, 182
Predicting RGP daily wear success, 152
Prospective clinical evaluation of the Acuvue Bifocal CL, 218
Ptosis associated with PMMA/RGP CL wear, 159
Qualitative identification of RGP CLs, 204
Relationship between CL oxygen permeability and binding of *Pseudomonas aeruginosa* to human corneal epithelial cells after overnight and extended wear, 80
Short-term hypoxia downregulates epithelial cell desquamation in vivo but does not increase *Pseudomonas aeruginosa* adherence to exfoliated human corneal epithelial cells, 73
Treating corneal ulcers: The impact of fluoroquinolones (editorial), 190

Contact lens complications
Microbiological evaluation of CLs and CL disinfection solutions in an asymptomatic population and in medical personnel, 228

Contact lens dehydration
Hydrogel CL dehydration and oxygen transmissibilities, 148
Omafilcon A (Proclear) soft CLs in a dry eye population, 40
On-eye dehydration of Proclear Compatibles Lenses, 233

Contact lens deposits
GPC in Frequent replacement CL wearers, 142

Contact lens disinfection
Antimicrobial comparison of a new multi-purpose disinfecting solution to a 3% hydrogen peroxide solution, 213
Comparative antimicrobial efficacy of multi-purpose lens care solutions using the FDA's revised guidance document for industry: stand-alone primary criteria, 52
Cytotoxicity evaluation of multi-purpose CL solutions using an in vitro test battery, 28
Microbiological evaluation of CLs and CL disinfection solutions in an asymptomatic population and in medical personnel, 228
Multi-purpose lens care solutions (letter), 70

Contact lens solutions
Antimicrobial comparison of a new multi-purpose disinfecting solution to a 3% hydrogen peroxide solution, 213
Comparative antimicrobial efficacy of multi-purpose lens care solutions using the FDA's revised guidance document for industry: stand-alone primary criteria, 52
Cytotoxicity evaluation of multi-purpose CL solutions using an in vitro test battery, 28
Incidence of contamination of preserved saline solutions during normal use, 167
Microbiological evaluation of Cls and CL disinfection solutions in an asymptomatic population and in medical personnel, 228
Multi-purpose lens care solutions (letter), 70

Contrast sensitivity
Comparison of contrast sensitivity in different soft CLs and spectacles, 48

Corneal epithelium
Corneal swelling and extended wear (letter), 6
Effect of RGP CL wear on proliferation of rabbit corneal and conjunctival epithelial cells, 136
Relationship between CL oxygen permeability and binding of *Pseudomonas aeruginosa* to human corneal epithelial cells after overnight and extended wear, 80
Short-term hypoxia downregulates epithelial cell desquamation in vivo but does not increase *Pseudomonas aeruginosa* adherence to exfoliated human corneal epithelial cells, 73

Corneal hypoxia
Relationship between CL oxygen permeability and binding of *Pseudomonas aeruginosa* to human corneal epithelial cells after overnight and extended wear, 80
Short-term hypoxia downregulates epithelial cell desquamation in vivo but does not increase *Pseudomonas aeruginosa* adherence to exfoliated human corneal epithelial cells, 73

Corneal topography
Differentiating CL induced warpage from true keratoconus using corneal topography, 114

Corneal ulcers
Bilateral *Pseudomonas* corneal ulcer in a disposable CL wearer, 123
Corneal ulcers and the use of topical fluoroquinolones, 200
Treating corneal ulcers: The impact of fluoroquinolones (editorial), 190

Corneal warpage
Differentiating CL induced warpage from true keratoconus using corneal topography, 114

Disposable contact lenses
Bilateral *Pseudomonas* corneal ulcer in a disposable CL wearer, 123
GPC in Frequent replacement CL wearers, 142
Penetration of topical ciprofloxacin by presoaked medicated soft CLs, 182

Dry eye
Omafilcon A (Proclear) soft CLs in a dry eye population, 40

Editorials
A look back, 8
A better understanding of ulcerative keratitis, 66
Extended wear revisited, 130
Treating corneal ulcers: The impact of fluoroquinolones, 190

Extended wear
Corneal swelling and extended wear (letter), 6
Effect of RGP CL wear on proliferation of rabbit corneal and conjunctival epithelial cells, 136
Extended wear revisited (editorial), 130
Management of pediatric aphakia with Silsoft CLs, 209

Eyelid scrubbing
Effects of eyelid scrubbing on the lid margin, 109

Fluoroquinolones
Corneal ulcers and the use of topical fluoroquinolones, 200
Treating corneal ulcers: The impact of Fluoroquinolones (editorial), 190

Frequent replacement contact lenses
GPC in Frequent replacement CL wearers, 142

Giant papillary conjunctivitis
GPC in Frequent replacement CL wearers, 142

Glaucoma
Assessment of corneal decompensation in eyes having undergone molento shunt procedures compared with eyes having undergone trabeculectomy, 57

In memoriam
Otto Wichterle, PhD (1913–1998), 4

Keratoconus
Differentiating CL induced warpage from true keratoconus using corneal topography, 114

Microbial keratitis
Comparative antimicrobial efficacy of multi-purpose lens care solutions using the FDA's revised guidance document for industry: stand-alone primary criteria, 52
Corneal ulcers and the use of topical fluoroquinolones, 200

Myopia
Achieving additional myopic correction in undercorrected radial keratotomy eyes using the Lexington RK design, 21

Orthokeratology
Achieving additional myopic correction in undercorrected radial keratotomy eyes using the Lexington RK design, 21

Oxygen transmissibility
Hydrogel CL dehydration and oxygen transmissibilities, 148

Pediatric contact lens fitting
Management of pediatric aphakia with Silsoft CLs, 209

Pemphigoid
Linear IgA dermatosis mimicking ocular cicatricial pemphigoid, 197

Penetrating keratoplasty
Assessment of corneal decompensation in eyes having undergone molento shunt procedures compared with eyes having undergone trabeculectomy, 57

Photorefractive keratectomy (PRK)
CL wear after PRK: Comparison between rigid gas permeable and soft CLs, 233

Polymethylmethacrylate (PMMA) contact lenses
Ptosis associated with PMMA/RGP CL wear, 159

Presbyopia
Clinical assessment of the piggyback bifocal CL system, 36
Clinical performance of an innovative back surface multifocal CL in correcting presbyopia, 176
Prospective clinical evaluation of the Acuvue Bifocal CL, 218

Pseudomonas aeruginosa
Antimicrobial comparison of a new multi-purpose disinfecting solution to a 3% hydrogen peroxide solution, 213
Bilateral *Pseudomonas* corneal ulcer in a disposable CL wearer, 123
Relationship between CL oxygen permeability and binding of *Pseudomonas aeruginosa* to human corneal epithelial cells after overnight and extended wear, 80

Radial keratotomy
Achieving additional myopic correction in undercorrected radial keratotomy eyes using the Lexington RK design, 21

RGP contact lenses
Achieving additional myopic correction in undercorrected radial keratotomy eyes using the Lexington RK design, 21
CL wear after PRK: Comparison between rigid gas permeable and soft CLs, 233
Comparison of tear lactate dehydrogenase activities of different types of CL wearers and a normal control group, 101
Diagnostic bitoric rigid gas permeable CLs, 163
Effect of RGP CL wear on proliferation of rabbit corneal and conjunctival epithelial cells, 136
Predicting RGP daily wear success, 152
Ptosis associated with PMMA/RGP CL wear, 159
Qualitative identification of RGP CLs, 204

Saline solution
Incidence of contamination of preserved saline solutions during normal use, 167

Spectacles
Comparison of contrast sensitivity in different soft CLs and spectacles, 48

Tears
Comparison of tear lactate dehydrogenase activities of different types of CL wearers and a normal control group, 101

Toric contact lenses
Diagnostic bitoric rigid gas permeable CLs, 163
